Create a Culture of Compliance While Managing Your Own Cloud Environment

With healthcare information technology transformation moving at an increasingly rapid pace, compliance and security monitoring across the healthcare enterprise is a significant challenge.

C2 takes the guesswork out of translating regulatory statutes into auditable technical controls and gives you the insight you need to assess your compliance posture relative to your regulatory requirements.

With support for HIPAA and GDPR, C2 can be enabled across AWS cloud environments and lets you monitor thousands of components, providing unique individual asset scorecards as well as full environment status checks.

Create a culture of compliance by leveraging the healthcare expertise from ClearDATA. Subscribe to C2 today in the AWS Marketplace.

Key Scorecard Metrics & Features

Encryption Verification: Validate that your storage medium is successfully encrypted to ensure compliance.

- HIPAA – 45 CFR 164.312(a)(2)(iv)
- GDPR – Article 32 Section 1(a)

Security Management: Receive notifications when EC2 patch baselines are not followed and quickly track previous updates to ensure compliance.

- HIPAA – 164.308(a)(1)(i)
- GDPR – Article 32 Section 1(d)

Logging/Version Control: Validate and track audit and system events to ensure proper logging for event correlation, activity reviews, and configuration drift management over time.

- HIPAA – 45 CFR 164.312 (e)(1)
- GDPR – Article 32 Section 2

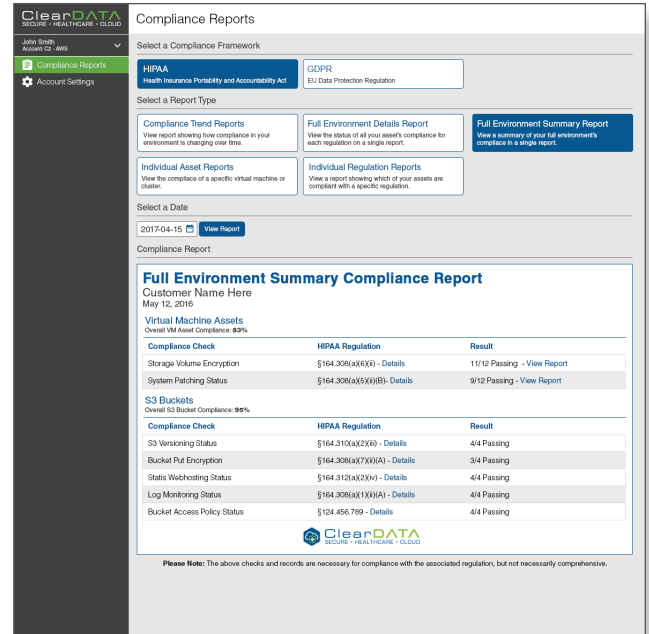

Access Management: Track and manage your assets to ensure users or other systems do not make sensitive data accessible to the public or unauthorized users.

- HIPAA – 45 CFR 164.312 (e)(1)
- GDPR – Article 32 Section 2

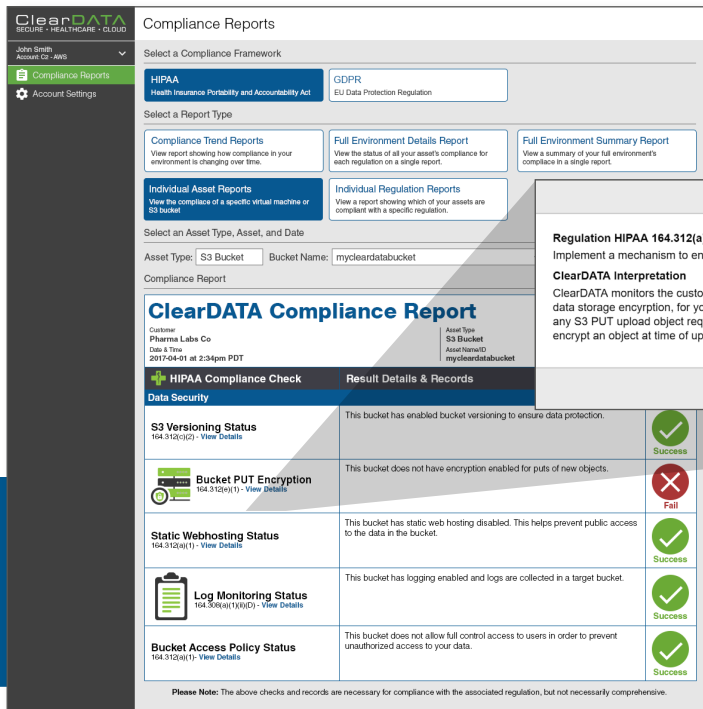

Compliance Reports and Trending for Regulatory Frameworks

Reduce audit stress with at-a-glance compliance reporting, prepare for upcoming audits, and see vulnerabilities and risks in your environment to correct BEFORE an incident. Additionally, gain insight into your environment as well as overall compliance with the Compliance Trend Reports. The C2 Dashboard gives you visibility into the following:

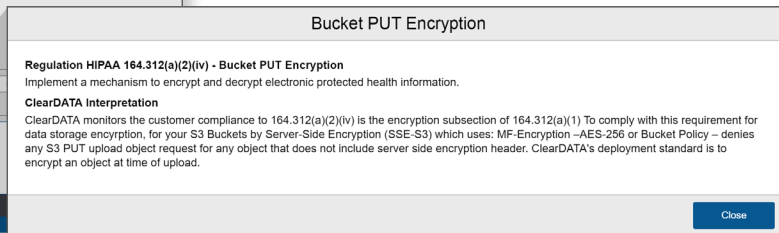

- HIPAA & GDPR Regulatory Frameworks:
 - Individual Asset Compliance Reports (Includes ClearDATA Regulatory Interpretation):
 - AWS EC2 Compliance Status
 - AWS RDS Compliance Status
 - Amazon S3 Compliance Status
 - Full Environment Summary Compliance Reports
 - Full Environment Trending Report
