CLEARDATA™

THE CLEAR CHOICE **TO PROTECT HEALTHCARE DATA**

For healthcare companies, innovating in the cloud is necessary

Doing it safely is hard

48%
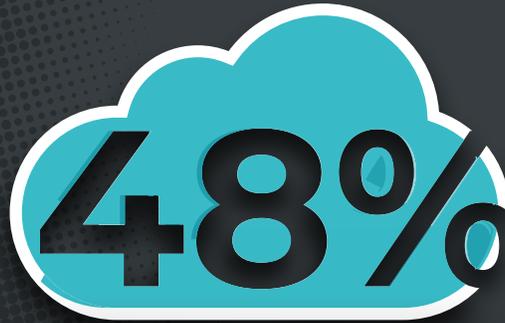

48% of cloud setup misconfigurations lead to the exposure of sensitive data*

That's why healthcare teams trust ClearDATA

* https://www.netskope.com/resources/white-papers/optimized-security-for-multi-cloud-iaas-environments

The **ClearDATA CyberHealth™ Platform** is the first – and only – cloud compliance & security solution **purpose-built for healthcare**

The **ClearDATA CyberHealth™ Platform**, our healthcare-native CSPM software, is trusted by healthcare technology, payer, and provider organizations to prevent, detect, and remediate compliance drift and sensitive data security gaps in public cloud environments to meet HIPAA and other regulatory frameworks.
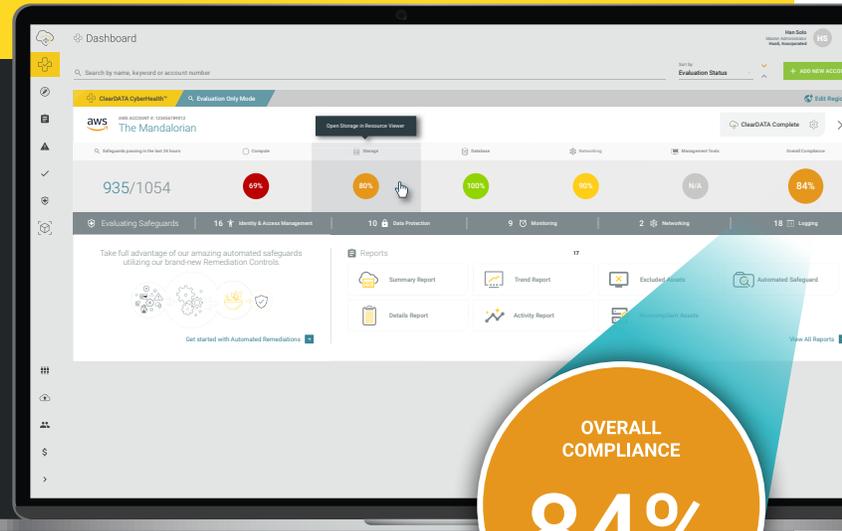

In your CyberHealth dashboard, easily monitor the compliance status of each of your cloud environments in real time

OVERALL COMPLIANCE

$10 MILLION Average Cost of Healthcare Data Breach

Configure your cloud right — right away — to mitigate risk and costly mistakes

POLICY AS CODE

PROTECTED BY CLEARDATA

HEALTHCARE DATA DESERVES
HEALTHCARE-FOCUSED SOFTWARE

CyberHealth Features

PREVENTION

Compliance Assessments
Spot unknown or high-risk issues across your cloud environment.

Infrastructure Safeguards
Hundreds of industry-standard and healthcare-centric safeguards scan regularly and upon new deployments.

Comprehensive Visibility
Get an overall view of your security posture and visualize vulnerabilities before they become liabilities.

DETECTION

Sensitive Data Governance
Ensure PHI is secure and where it's supposed to be, and detected anywhere it shouldn't.

Risk Assessment
See real-time visualizations showing what is — and isn't — in compliance with common healthcare regulations, standards, and best practices deployments.

Audit-Ready Report Generation
Get comprehensive data on your compliance status for internal monitoring or regulatory audits.

RESPONSE

Remediation
Guided and automated remediation for correcting cloud misconfigurations, decreasing attack surface exposure, and reducing remediation time.

DevOps Assurance
Identify and remediate security risks as systems are built and maintained.

Compliance Enforcement
Automatically act on and implement recommended configurations, apply patches, or disable insecure services.

NEED
HANDS-ON SUPPORT?

ClearDATA also offers a suite of **Managed & Professional Services** tailored to your ongoing architectural, development, and business needs.

Let's Connect

"Not only did ClearDATA initially take us by the hand and get Delegate to market in the cloud, months faster than we could have alone, they have continued to take real ownership and responsibility for our application, its compliance posture, and its security."

delegate

"ClearDATA makes it easy to use the same AWS services we're familiar with, but inside a HIPAA- and HITRUST-compliant environment."

△△ MACHINIFY

# How can you protect your PHI if you don't know where it lives?

The ClearDATA CyberHealth Platform is packed with more than 10 years of healthcare compliance expertise. Your protected data is operationally mapped to regulations like HIPAA and GDPR, standards frameworks like ISO and NIST, and to more than 500 controls across AWS, Azure, and Google Cloud.

All in real time. All within a refined, intuitive interface.
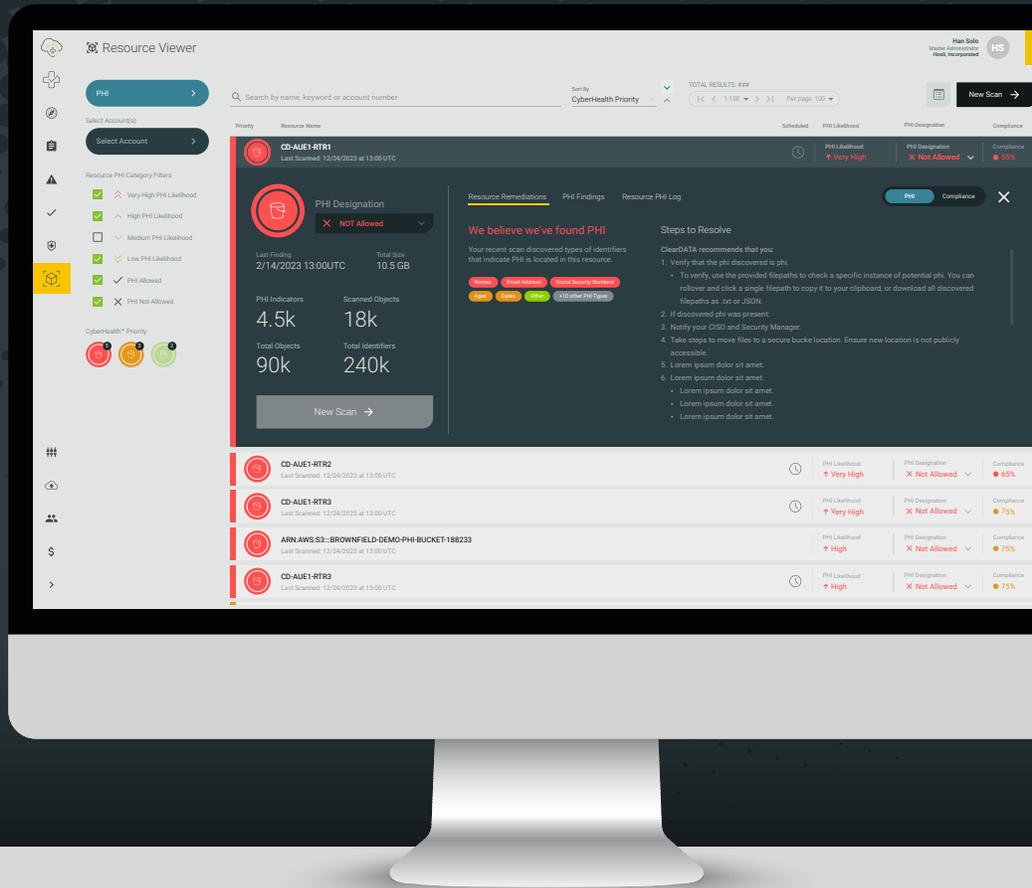

PHI Likelihood	PHI Designation	Compliance
↑ Very High	✕ Not Allowed ˅	● 55%

▲ *At-a-glance indicators let you immediately spot problem areas*

	ACCT #: 444555666777	Enabled Framework
aws	AWS - Development	ClearDATA Complete
aws	AWS - SecOps	
aws	AWS - Prod2	
aws	AWS - Stage	Enabled Framework ClearDATA Recommended

- HIPPA
- GDPR
- HITRUST
- ISO
- CSF NIST
- SP NIST

▲ *Your environments are analyzed against the strictest healthcare-centric frameworks*

When compliance issues are flagged, your teams receive clear remediation steps to help respond right away ▶

We believe we've found PHI

Your recent scan discovered types of identifiers that indicate PHI is located in this resource.

- Names
- Email Address
- Social Security Numbers
- Ages
- Dates
- Other
- +10 other PHI Types

▲ *The CyberHealth Platform automatically flags PHI in areas it shouldn't be, mitigating costly compliance risks*

Steps-to-Resolve	Details	Standards & Certifications	CMS History

✓ Remediation Description ˅

1. Navigate to the resource overview by using the AWS Portal search
2. In the left-hand resource navigation blade, click Diagnositc settings under Monitor in the resource's menu
3. In the blade, click "+ Add" diagnostic setting and set the following:
   A. Name: cdLogBackupLM
4. Check the Archive to a storage account box
5. Storage Account: Select the appropriate storage account in the same region
6. Enable "All Logs" checkbox and leave Retention (days) set to "0"
7. Click Save

💡 Troubleshooting Tips ˃

Experience the
ClearDATA Difference

Enabled by the first and only software of its kind for healthcare, companies of all sizes gain full visibility, protection, and enforcement of security and compliance measures to secure PHI and other sensitive healthcare data in the cloud.

THE RIGHT EXPERTISE

ClearDATA's software and services were designed from the ground-up with healthcare providers and partners in mind. Rest easy knowing the healthcare industry's rigorous compliance needs are covered.

THE RIGHT SOLUTIONS

Whether you choose software-only or one of our managed services packages, ClearDATA's solutions can be tailored to your team's needs and work with the three major public cloud providers (AWS, Azure, and GCP) — which is exactly why healthcare organizations love them.

THE CLEAR CHOICE

Continuous compliance. PHI protection. Healthcare-focused CSPM. Wherever you are on your healthcare cloud journey, **ClearDATA is the clear choice for success.**

Reach out today to schedule a consultation with one of our experts, who will help you find the best solution for your organization's healthcare cloud compliance and security needs.
